- Tools & Platforms
- Git, GitHub, Postman, AWS
- Core Concepts
- React Router, SPA, Responsive Design, Cross-Browser Compatibility, Performance Optimization, API Integration

LANGUAGES

Tamil (Native / Fluent)

English (Professional Working Proficiency)

CERTIFICATES

Python Full Stack Developer Certification

Issued by: Greens Technologies

PROFESSIONAL EXPERIENCE

- Software Developer | Hermon Solutions, Ticket Management System 
- 02/2026 – Present
- A system for customers to raise product-related issues. Staff can assign tickets to technicians, track progress, and close them once resolved.
- Built a responsive front-end for 1K+ users ticket submission.
 - Implemented **ticket assignment and tracking** for staff and technicians.
 - Created **dashboards** to monitor and manage tickets.
 - Ensured **smooth UI/UX** for both customers and staff.
- Software Developer | Hermon Solutions, CRM & WhatsApp Marketing Automation Platform 
- 03/2025 – 01/2026
- Developed modules to create, manage, and send promotional campaigns to customers via WhatsApp. Implemented workflows for broadcasting offers, notifications, and updates efficiently.
- Built **responsive and interactive UIs** using HTML, CSS, JavaScript, and React.js.
 - Created **reusable React components** for better scalability and maintainability.
 - Integrated **RESTful APIs** for campaign management and real-time updates.
 - Designed **dashboards** for campaign creation, scheduling, and monitoring.
 - Optimized **UI performance** and ensured cross-browser compatibility.
- Trainee Software Developer | Hermon Solutions, Ad Booking & Theme Configuration Platform 
- 09/2024 – 02/2025
- A web platform that lets users browse ad spots, submit booking requests, and negotiate directly with service providers. The clean, responsive design simplifies promoting brands through strategically placed wall ads.
- Built a **responsive front-end** with HTML, CSS, JavaScript, and React.js.
 - Created **reusable UI components** for browsing and booking ads.
 - Enabled user-provider **communication and negotiation** flows.
 - Delivered a **clean, intuitive UI/UX** to enhance engagement.
 - Optimized performance** for fast, smooth navigation across devices.

EDUCATION

Master of Computer Applications (MCA)

2021 – 2023 | Kumbakonam

Bachelor of Computer Applications (BCA)

2018 – 2021 | Nagapattinam

KEY ACHIEVEMENTS

- Enhanced Application Performance
- Improved application performance by **25%** using code splitting and optimized React components
- Resolved Critical Issues
- Resolved **50+** frontend issues and delivered **50+ UI** enhancements, boosting team productivity by **30%**.
